Hi Regan. I will send you a list of the class participants on Monday for you to forward to EPA security. I think you told me the students are to bring their drivers license and that they will have to pass through a metal detector. Is there anything else related to security that we need to advise the students? I am putting together instructions for them and was hoping to send it out to them tomorrow.

Also, where are the students and instructors supposed to park? is there a map or a clearly marked area for visitors parking? I never received parking instructions - you did note in an earlier email from August that you will need to send me parking instructions. I think you were going to check to find the most current instructions for visitor parking.

I am also noting in the instructions that room AG-30 down the hall from the cafeteria has been reserved for the students' use during lunch.

Thanks again Regan. I look forward to your reply.

Linda
